|---|---|--|--|

For the second year in succession the absolutely ridiculous idea of sane people running laps of an athletic track continuously for five hours took place on 4th November 2017.

Yes following the great success of Lap Dog Challenge 2016, which raised HK\$1.14m for the LHC Benevolent Fund, the event was run again in the early hours of a Saturday morning at Stanley Ho Sports Institute, Pok Fu Lam.

This year we had eight teams fielding a total of 40 runners. They came from Aurecon, CBRE, Dragages, Gammon, ISG/Commtech, Leighton, MTR and WT Partnership.

At 7am the hooter was blown and all runners took office laughing and chatting. Some five hours later there wasn't much laughter happening. Most were still running, some were staggering, when the hooter blew to call a close to proceedings.

When the final numbers were tallied a total of 3,685 laps had been completed. That's 1,474 kilometers!

Total laps by team are shown below. MTR took the trophy for most laps by a team with 561 laps (224.4km). Best individual male was Adam Czegledi of Aurecon who completed 142 laps (56.8km) and best individual female was Cara Taylor of CBRE who completed 107 laps (42.8km).

Aurecon	509
CBRE	359
Dragages	491
Gammon	429
ISG/Commtech	461
Leighton	496
MTR	561
WT Partnership	379
<b>Total</b>	<b>3,685</b>
